the Calumet Club, of which he was a member and once a governor. It is club gossir that the matter was first brought to at tention by the bellboys, who refused to go to Hall's room. Their stories were heard, and a private detective, in the disguise of a club servant, was brought into the case. His report to the Calumet Club governors caused them to ask for Hall's resignation. He resigned. The story was repeated in the New York Yacht Club, of which he was a member. It reached mem-bers of the wine firm of F. de Peyster Hall

which he was a hemost. It reacted heath here of the wine firm of F. de Peyster Hall & Co., of which he was president. He resigned his place with that firm. He became a stranger at the St. Anthony's Club, the Trinity Alumni and the other social organizations of which he was a member, but he suddenly sprang into prominence again when he filed his suits.

The first of these, of which notice was given on Oct. 5, was against President Bond of the Calumet Club for \$50,000 damages for alleged stander in the charges made when he left the Calumet Club. Hall alleged that Bond had spread these reports to Russell H. Headley of his wine firm, thereby causing him the loss of his position. Suit for the same amount was entered against Secretary George Carmack of the New York Yacht Club, on similar grounds. against Secretary George Carmack of the New York Yacht Club, on similar grounds. It was alleged that the report of the Calumet Club proceedings had been circulated by Carmack in the yacht club. These suits were followed by the \$2,000 suit against Ernest Staples of the New York Yacht Club. The grounds were exactly the same, and the sum was set at \$2,000, so that the case might have speedy trial in the City Court.

THE DEAD MAN.

THE DEAD MAN.

Frank de Peyster Hall was a member of an old New York family. He was 50 years old. He was graduated from Trinity College, travelled much in Europe, where his mother lives now, and, settling down in this city, founded the firm of wine agents which bore his name. In the beginning he was associated with Raoul Duval of Paris, now of San Francisco, and the late Albert Stevens. The firm was successful from the beginning, and in the end Hall secured a controlling interest. He had been a member of the Calumet for ten years and was on the 1903 board of directors.

The attorneys for the defendants say that their witnesses were not confined to hallboys and detectives. On the other hand, there were many friends who believed in Hall to the end. They echoed his assertions that the reports against him were trumped up by an enemy who wanted to drive him out of business.

IS SUICIDE CONFESSION?

"Idle rumors, started by a malicious person and circulated by gossips," said one of these friends when the suit was filed. Even now, some of them point to the case of Gen. Sir Hector Macdonald as proof that Gen. Sir Hector Macdonald as proof that suicide does not always mean a confession. Sir Hector Macdonald was a Scotch soldier of the British Army who rose from the ranks to high command. He had a splendid record for bravery made in forty years of service. He was wounded in the Boer war and invalided to Ceylon. There charges like those against Hall were made against him. By advice of Gen. Roberts, he demanded an investigation, and was on his way to London to answer the charges his way to London to answer the charges when he committed suicide in Paris. After his death a committee investigated the charges and reported to the War Office that they were false.

that they were false.

"Suicide doesn't always mean confession," said one of these friends. "A man might prefer to die rather than have such reports attached to his name, even though they were called false by a court."

In Hall's room were four letters from friends who did not believe him guilty. One was from his brother Arthur, dated from Kenyon College, Gambia, Ohio. Another, on the letterhead of H. V. Rutherford. 31 Nassau street, reads:

ford, 31 Nassau street, reads:

We all know you too well. My best wishes. Believe me, always yours.

Crossing the room, he shook hands with him with considerable ostentation, as if to show that he took no stock in the stories against Hall. Only those persons familiar with the thoroughness of the methods of detection adopted by the committee of the Calumet Club believed the charges.

He always took a great interest in athletics, and during recent years he kept himself in the hands of trainers years he kept tilmself in the hands of trainers to prevent obesity, with which he was threatened. He had never been known in society, and it was in the Calumet Club that his largest circle of acquaintances existed. Hall had iron gray hair and a grayish mustache, wore glasses and was always dressed in elaborate, if quiet, fashion.

GENERAL STAFF OVERRULED. The President Revokes an Order Issued

by Lieut.-Gen. Chaffee, Chief of Staff. WASHINGTON, Oct. 10.-President Roosevelt to-day added another chapter to the growing list of the troubles of the General Staff of the Army by revoking an order issued by Lieut.-Gen. Chaffee, Chief of Staff, assigning four enlisted men of the Artillery Corps, who recently passed successful examinations for commissions to the Artillery Corps as Second Lieutenants. The President ordered them assigned to

Twenty-four enlisted men recently passed examinations for commissions at Fort Leavenworth, Kan. Seventeen of those who passed their mental examinations also qualified physically. Six had some trifling physical defect, most of them being a few pounds under weight, and the exam-ining board recommended that commissions be given them as has been the custom. The General Staff thought otherwise, how-ever, and disapproved the recommendation of the examining board. The President at first decided to withhold the com-

dent at first decided to withhold the com-missions from the seven young men in question, but afterward changed his mind concerning six of them, and they were appointed Second Lieutenants.

Four of the twenty-four young men were former enlisted men of the Artillery corps, and Gen. Chaffee, on behalf of the General Staff, assigned them to that corps. Brig.-Gen. Story, Chief of Artillery, pro-tested, pointing out that a War Depart-ment order made it necessary for aptested, pointing out that a War Department order made it necessary for applicants for commissions in that branch of the service, entering from civil life or from the ranks to take a special examination. His protest was not considered.

The case was immediately carried to President Roosevelt by Gen. Story and Major-Gen. Ainsworth, the Military Secretary, and to-day the President followed their recommendation by transferring the four officers in question from the artillery to the infantry.

HARRISON POUNDS ODELLISM.

WILL STOP GRAFT IN CANAL BOARD IF ELECTED.

Says He Is No Geologist, but Knows the Difference Between Rock and Soft Earth-Must Be No Repetition of 89,000,000 Steal on Larger Scale.

i rancis Burton Harrison, candidate for utenant governor on the Citizens' ticket, addressed an audience of nearly 3,000 in Prospect Hall, Brooklyn, last evening on the issues in the State campaign. He received the only whole-hearted cheers from an audience which waited for into the evening for him, listening to men of national prominence on national issues. unless the cheers for Pat McCarren, who came into the hall with Harrison, and the applause that once greeted the incidental mention of Grover Clevelaand's name be

excepted. Mr. Harrison said in part

I shall confine myself to State issues in a few, plain, straightforward words. I base my words on two sentences from the Democratic State platform which embody the real issues of this campaign—these words: The has surrounded himself by high officials and afvisers under whose makigu lafteness the public revenues of the State are largely diverted to private profit. Instead of being opposed to extravagance and waste, the administration has become the actual promoter of adroit schemes to loot the public treasury under the guise of law."

I need not add one word to that, nor will I detract one word. As a candidate for office I must restrain the indignation which I share with every citizen, Republican or Democratic, at the condition of State affairs, and temper my expressions. But shall the administration which is responsible be continued? The same name, it is true, is not at the head of the Republican ticket this year; but they seek to perpetuate the same administration. The voice is the voice of shood, but the hand is the hand of Esau. To insure a return to a frugal and honest administration we offer you an upright man, D. Cady Herrick of Albany. Put him in power and he will protect the State from border raids.

A few words as to my own candidacy. One bif the most important parts of my duties will lie a the fact that I shall, if elected, sit as ex-officio member of the canal board. There has been, according to official figures, 1937,600 annual increase in operating expenses on the canal and \$100,000 in salaries. Despite this the tonnage has decreased thousands of tons. But more important and terious than this, the people have decided at the poils to enlage the canal. Now they are called upon to decide by their ballots into whose hands they will intrust the \$101,000,000 they have voted. Shall they put it into the same as those who so shamelessly wasted the \$0,000,000? That, I take it, is the real issue of this campaign.

The Governor, stung by the criticisms of him, summoned a witness to testify for him. Very felicitously he selected John Cunnen.

Cunnen, a a few, plain, straightforward words. I base my words on two sentences from the Demo-

of him, summoned a withess to tunning him. Very felicitously he selected John Cunneen.

Cunneen, as Attorney-General, sits as a member of the Canal Board. He recalled that the Furnaceville Iron Company, a creature of the Governor's friend Harriman, submitted a claim of \$18,000 for rock excavation. The Attorney-General found no rock. Despite this all the Republicans on the board voted to give the money. Under the circumstances the people ought to be thankful that the Furnaceville Iron Company didn't send in a claim for the excavation of iron.

I am not a trained geologist, but I can tell the difference between rock and soft dirt and if the question comes before me I'll know how to vote. I'll also know how to vote on increases of salaries

That's the main issue—upon that we are willing to go before the people for their votes. And we ask, with confidence, whether the Democrats will not be joined by Republicans disgusted with the present state of affairs and vote for D. Cady Herrick, a man whose record has raised him high and who stands four square to all the winds.

Mr. Harrison also addressed a monster

Mr. Harrison also addressed a monster meeting last night in The Bronx at Zeltner's Hall, at 170th street and Third avenue. Park Commissioner John J. Brady was the chairman. He introduced Mr. Harrison as the first speaker, and when he arose the audience applauded for three minutes. He said in park said in parte

The good feeling that exists throughout the State is due to the triumphant success of our present municipal administration in New York city. I regard this as a most auspicious occasion for good government. It shows that the people of this State are getting ripe for a Democratic administration.

The young men are awakening to the fight, and it is a sure sign of victory. The blood of Democracy is returning to their veins, and it is well known to all of you that the Democratic party is the party for young men. Where else can he get so many opportunities? The Democratic party throws open the doors of its council chambers to the young men. They cannot obtain recognitions.

open the doors of its council chambers to the young men. They cannet obtain recognition in the Republican party unless they show subserviency to some boss.

I want to tell you that Democrats are united in this fight all over the State, and just as sure as the stars are above we are going to win. It is in the air. We have had enough of Republican misrule. I would like to discuss some of the national issues in this campaign, but I am due to speak at another meeting, and I shall only touch upon one subject which is of more vital importance to us, and that is the government of this State.

to us, and that is the government of this State.

The Governor of New York has centralized the powers of his administration in suc a way that he has the Legislature in his grasp and the public officials are as serfs beneath his whip. He has taken away all the power of local boards in the chairtable institutions throughout the State, damaging the efficiency and the reputations of some of our great institutions. So much so that it has almost ruined the fair name of our Stat charitable institutions.

Mr. Harrison also touched upon the Furnaceville Iron Company affair, and Furnaceville Iron Company affair, and

"If I am elected Lieutenant-Governor of this State I pledge to you unceasing vigilance in protecting the taxpayers' money, and shall devote myself heart and soul in trying to discover the wrong-doers and bring them to the bar of public lightly."

At the close of his address Mr. Harrison got three rousing cheers, and he had to fairly fight his way out of the hall to get away from those who wanted to shake hands with him, John S. Crosby was the next speaker. He said that from the talk next speaker. He said that from the talk he had had a few days ago with prominent Democrats and Republicans up the State Judge Herrick and his running mate, Mr. Harrison, would be elected beyond any doubt. In some of the counties even the Republicans are getting sick of Odellism,

CHASED BY BOYS TO CAPTURE.

Two Men Accused of Gagging and Robbing One Who Was Arrested Too. When Louis Vanse of 202 Fifth street and John Smith, who has no home, were arraigned yesterday in Jefferson Market police court on a charge of robbery it came out that three boys had been the means of capturing the prisoners. Policeman Lenahan of the Mercer street station said that the boys told him that they had seen the two men hold up a third, whom the police had been unable to find, gag him with a handkerchief and take away

his watch. This happened at Lafayette place and Fourth street. The boys chased the two men to Broadway and Tenth street, almost men to Broadway and Tenth street, almost into the policeman's arms. Lenahan seized one of the fugitives and the boys kept on after the other until he was stopped.

The boys were Oscar Kirshnowitz, 11 years old, of 34 East Fourth street; James Rose, 14 years old, of 7 Rivington street, and Thomas Morgan 14 years old, of 57 East Fourth street. He was arrested by the police of the Mulberry street station. The police will make an effort to get him out to-day.

CLEVELAND TO PRESIDE, Judge Parker Hears, at Carnegie Hall Meeting Next Week Friday.

Candidate Parker came to town at 9 o'clock yesterday morning, went to his apartments in the Hotel Seville, at West Twenty-eighth street and Madison avenue. donned his working clothes and became immediately busy. He will stay here probably until Thursday. It was hinted that the Judge will not spend as much time in New York from now until election as he has spent here in the last month. He has done a lot of conferring on his recent visits to this city, and yesterday's calling

list indicated that the scheme is petering out. One piece of pleasant news came to the candidate. That was the assurance that Grover Cleveland will preside at a Democratic mass meeting to be held in Carnegie cratic mass meeting to be held in Carnegie Hall on Oct. 21. The Parker managers have been hoping for at least one speech from Mr. Cleveland, and his willingness to make it has cheered Judge Parker not a little. Yet there is no sign that the Judge will lift his own voice. The Long Island Democrats who are going to Esopus next Saturday need not hope for a speech. News of the battle in New Jersey was brought to Mr. Parker early in the day by ex-Senator Rufus Blodgett of Long Branch, but Mr. Blodgett declined to say what it amounted to.

List Prepared and May Be Announced After County Executive Committee Meeting To-day—Levenson May Not Run Against Goldfogle in the Ninth

Governor-Chairman Odell returned from Newburg yesterday morning, had conferences with Tammany Hall Republican district leaders, gave out Justice Miller's new reply to Cunneen and had never a word to say in reply to this remarkable plank adopted at Saratoga by the Democratic State convention:

For the first time in its history the Empire State has a Governor whose personal integrity rests under widespread suspicion. He has surrounded himself by high officials and advisers under whose malign influence the public revenues of the State are largely diverted to private profit.

Some of the Republican district leaders are openly resenting the proposal to foist deputy leaders upon them. More who have not the pluck to protest to Mr. Odell to his face are protesting under their breath. Mr. Odell knows nothing of this dissatisfaction. He said so himself yesterday.

"None of the leaders are protesting against the idea of having voluntary assistants," he said. "Why should they? These assistants will be useful to them in their work and will not in any way interfere with the authority of the leaders.' He has delayed from day to day

on some small excuse to make known the list of the deputies. It has been prepared, and typewritten copies are awaiting distribution in Billy Halpin's office. Mr. Odell had a conference yesterday with Charles H. Murray, Halpin and several of the leaders of the districts on the lower East Side. It was said that the proposal to put up Joseph Levenson, the Tammany Hall Republican leader of the Fourth district, as a stalking horse to Goldfogle in the Ninth Congress district had been abandoned and that some one who could be relied upon to make even a poorer showing than Levenson would for appearance sake be nominated at the adjourned convention With all these things in mind, Mr. Ade has taken for his hero one William Henry Spangle, who comes to a mythical island of Ka-Choo in search of ancestors, having already made his fortune in chewing gum. Round and 'Round the Metropole the Yelling Practitioner Ran. Schmidt confided to the tout that he had some money and would like to get in on the ground floor on a good thing. The tout took his name and address.

The tout looked Schmidt up yesterday and told him to get his money together and come along down town to play a couple of good things. Schmidt got \$300 and accompanied the tout to Broadway and Forty-second street. By the time they got to the Hotel Metropole the tout knew the size of Schmidt's roll and had his plans

The tout said the money would have to be bet in a poolroom around the corner, where he was well known. He volunteered to do the betting, and Schmidt peeled off \$200 of his roll. The tout dusted around into Forty-second street and probably spent the next half hour trying to stop laughing. At the end of that time he returned with a long face and said that the good thing had fallen down.

Schmidt didn't wake up even then. The tout said Lady Rohesia was a "pipe" in the next race and could not lose even if she fell down. To make up for his first loss Schmidt parted with his last hundred.

RUSSIAN APPEAL TO US. The Exiled Agitators for a Constitution

Begin a Movement Here. Recent events in the Far Eastern war and the increasing discontent and disturbances in Russia have given a fresh impetus

to the agitation for a constitutional government in the Czar's dominions, and the Russian exiles who are its backbone are taking advantage of the opportunity. Meetings to let foreigners know the truth about conditions in Russia are being held in London with a view to turning the present humanitarian movement to the advantage of the sufferers by official tyranny

and misdoing in Russia. There have ap peared among the speakers at these meetpeared among the speakers at these meetings men who hitherto have never shown much interest in the cause of Russian reform, and the cry of the exiles has been heard with more than usual sympathy.

A movement in the same direction in this country is to be begun by the Friends of Russian Freedom, the international organization founded by Stepniak in London and represented in this country by George Kennan and William Dudley Foulke, at a mass meeting to-night in Cooper Union.

represented in this country by George Kennan and William Dudley Foulke, at a mass meeting to-night in Cooper Union.

This organization is modelled on the same lines as was the Cuban junta. It aims not only to bring foreign opinion to bear upon Russia, but also to foment the agitation within the realm by supplying and circulating forbidden literature and helping such friends of popular freedom as get into trouble. It has an organ, Free Russia, published in London and smugglled into Russia, and collects funds for its purposes and distributes them.

The London headquarters of the organization has sent three delegates, Messrs. J. F. Green, Perris and Bowers, to address the meeting to-night and to stir up sentiment elsewhere. Mr. Foulke is to preside, and among the other speakers will be Alice Stone Blackwell of Boston, Bolton Hall, Hugh O. Pentecost, Ernest H. Crosby, Herbert N. Casson and Mrs. Lydia K. Commander. News of recent occurrences in Russia which the censor has not permitted to escape by the regular channels is to be told, and it is expected that an agitation will be started the effect of which will be felt in Russian officialdom.

A HORSE THAT EATS PIGEONS. He Also Varies His Usual Vegetable Diet With a Beef Stew.

Dr. Josiah Hornblower, who keeps a drug store at Central avenue and Griffiths street, Jersey City, recently caught his old horse. Bill, in the act of eating a pigeon, feathers and all, in his stall. Bill had killed

the bird while it was picking up oats. The discovery of pigeon feathers in the stall on several occasions since then has led the doctor to believe that Bill is fast becoming a carnivorous animal. The horse has several times eaten beef stew which had been placed in the yard for the dog's dinner.

TRUNK MYSTERY SOLVED. Captain O'Brien's Vigilance Brings to Light a Moving Tale.

Capt. John J. O'Brien of the Charles street station thought for a few minutes last night that he had made an important capture. He saw two men carrying a trunk up Greenwich street and decided that they had stolen it. He made the men carry the trunk to the station when he couldn't understand what they were saving.

After a long confab at the station the After a long confab at the station the captain decided that the men were Frenchmen and he sent for an interpreter. With the assistance of the interpreter, and after the men had pulled everything in the trunk out, the captain came to the conclusion that one of the men was moving to a new lodging house and his companion was helping him.
